

Plate 4. a. *Entoloma* sp. (K. Syme); b. *Nidula niveotomentosa* (M. Pilkington); c. *Cyathus striatus* (D. Catcheside); d. *Lysurus mokusin* (D. Catcheside); e. *Cotylidia undulata* (R. Robinson); f. *Podoscypha petalodes* (D. Catcheside); g. Parasitised beetle (S. McMullan-Fischer); h. Parasitised sphingid moth (S. Wilson); i. Parasitised wasp (S. Wilson); j. Parasitised fly (S. Wilson); k. *Panus fasciatus* (D. Catcheside); l. Parasitised *Pycnoporus* (E. Marshall).

Plate 1. a. *Agaricus rotalis* from Churchlands, Perth, WA. (N.L. Bougher); b. *Agaricus augustus*, SA (D. Catcheside); c-e. *Rhacophyllus lilacinus*, Kimberley Region, WA. (R. Barrett); f-g. *Austropaxillus infundibuliformis* (f. K. Syme; g. M. Pilkington); h. *Hygrocybe* sp.1 (K. Syme); i. *Hygrocybe* sp.2 (K. Syme); j. *Ascobolus crenulatus* (D. Catcheside).

Plate 2. Slime mould fruit bodies: Sporangia. a-h. a. *Arcyria* sp. (D. Catcheside); b. *Arcyria* sp. (P. George); c. *Stemonitis* sp. (D. Catcheside); d-e. *Stemonitis* sp. (P. George); f-g. unknown (P. George); h. *Stemonitis* sp. (P. George). Plasmodiocarp i-j. unknown (P. George); Pseudoaethalium. k-m. *Tubifera* sp. (P. George).

NEW Fungimap Target Species

Favolaschia calocera
Orange ping pong bats

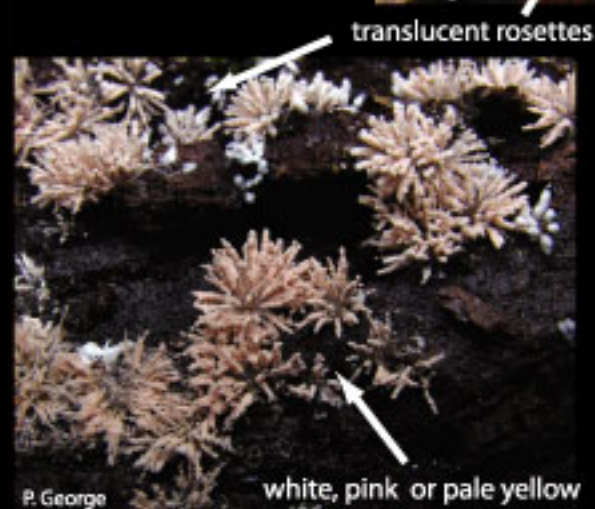

Fuligo septica
Dog vomit slime mould

Ceratiomyxa fruticulosa
Icicle fairy fans

Hemitrichia serpula
Yellow Scribbles

yellow, firm then powdery

Lycogala epidendron
Wolfs milk

globular, exterior bright orange to coral red

mature pinkish-grey
dry powdery spore mass

pink to red slime

warty surface
