

Correction to the 'Key to Australian species of *Microseris*' in Walsh (2016), *Muelleria* 34, pp. 63–67

Neville Walsh

National Herbarium of Victoria, Royal Botanic Gardens, Private Bag 2000, Birdwood Ave, South Yarra, Victoria 3141, Australia; e-mail: neville.walsh@rbg.vic.gov.au

Correction

Within the key to the Australian species of *Microseris* (p. 65), 'mm' has been inadvertently inserted after the value for each mention of pappus scales. The value should be read as the number rather than the length of pappus scales per cypsela, i.e. 30–66 scales per cypsela for *M. scapigera*, 10–20 for *M. lanceolata* and c. 10 for *M. walteri*.

Acknowledgement

Thanks to Brian Bainbridge for bringing this unfortunate error to my attention.
