Muelleria

150

1853-2003

NATIONAL HERBARIUM OF VICTORIA

*Celebrating 150 years
of plant research in Australia*

Muelleria publishes research papers on Southern Hemisphere plant, algal and fungal systematics, particularly relating to Australia and the states of Victoria and Tasmania, and to the collections of the National Herbarium of Victoria. Acceptable submissions include: taxonomic revisions; phylogenetic and biogeographical studies; short papers describing new taxa, documenting nationally significant new records, or resolving nomenclatural matters; historical analyses relevant to systematics; any other research contributing to our knowledge of plant, algal or fungal diversity.

Muelleria is published annually or semiannually by the National Herbarium of Victoria, Royal Botanic Gardens Melbourne. Manuscripts should be sent in triplicate to:

The Editor, *Muelleria*
Royal Botanic Gardens, Melbourne
Birdwood Avenue

CONTENTS

Volume 16 2002

Contributed Papers	Page
The Hygrophoraceae of Tasmania — A.M. Young and A.K. Mills	3
Genetic evidence supports reclassification of <i>Agrostis billardierei</i> var. <i>filifolia</i> and <i>A. aemula</i> R.Br. var. <i>setifolia</i> as a single species, <i>A. punicea</i> (Poaceae) — E.A. James, M.C. Ryan, Y.J. Fripp and A.J. Brown	29
Notes on <i>Conothamnus</i> Lindl. with the description of a new section, sect. <i>Gongylocephalus</i> Craven (Myrtaceae) — L.A. Craven	39
<i>Calotis cuneata</i> var. <i>pubescens</i> (Asteraceae), change in rank and notes on its distribution and ecology — N.G. Walsh and K.L. McDougall	43
Successful DNA amplification from <i>Acacia</i> (Leguminosae) and other refractory Australian plants and fungi using a nested/semi-nested PCR protocol — F. Udovicic and D.J. Murphy	47
A systematic study of <i>Acacia calamifolia</i> s.l., with special emphasis on <i>A. euthycarpa</i> in Victoria — S.H. Wright, J.W. Grimes, and P.Y. Ladiges	55
<i>Agyrium</i> Fr., <i>Bryophagus</i> Nitschke ex Arnold and <i>Racodium</i> Fr., lichen genera previously unrecorded for Australia — G. Kantvilas	65
Alexander Clifford Beaglehole OAM (26 August 1920–19 January 2002) — J.H. Ross	71
Some new combinations and a new hybrid genus in Orchidaceae: <i>Diurideae</i> , for eastern Australia — J.A. Jeanes	81
<i>Nymphoides simulans</i> (Menyanthaceae): a new species from northern Australia — H.I. Aston	83
Variation within <i>Asterolasia asteriscophora sensu lato</i> (Rutaceae: Boronieae) and the recognition of new taxa in eastern Australia — B.J. Mole, M.F. Duretto, P.Y. Ladiges and E.A. James	87
