Plant and Fungal Taxonomy & Systematics

Vol 30(2) 2012

Royal  
Botanic  
Gardens  
Melbourne

***Lastreopsis shepherdii* (Kuntze ex Mett.)**

**Source:** State Botanical Collection

**Artist:** Frederick Pitcher (1856-1935)

A founding member of the Field Naturalists Club of Victoria, Pitcher trained with Baron von Mueller specialising in the Pteridophyta. He worked closely with William Guilfoyle on the planting of Australian species in Melbourne Botanic Gardens. Using the nature printing process, Pitcher made impressions of 60 species of ferns; some of which survive in the Fern Gully today.

*Muelleria* publishes research papers on Southern Hemisphere plant, algal and fungal taxonomy and systematics, particularly relating to Australia. Acceptable submissions include: taxonomic revisions; phylogenetic and biogeographical studies; short papers describing new taxa, documenting nationally significant new records, or resolving nomenclatural matters; historical analyses relevant to systematics; and any research contributing to our knowledge of plant, algal or fungal diversity. Special issues or reviews will also be considered after discussion with the Editor.

Editor in Chief	Teresa Lebel		
Associate Editors	Tom May Anna Syme	Frank Udovicic Neville Walsh	Daniel Murphy
Copy Editors	Wayne Gebert	Alison Vaughan	
Editorial enquiries	The Editor, <i>Muelleria</i>
